The DRH Collection

Founded in 2004 and based in London, The DRH Collection specialises in supplying the middle and top end of the Retail, Hospitality, and Trophy & Engraving markets with ceramic and glass tableware, kitchenware, bakeware and giftware, designed and produced all around the world.

Originally operating solely out from the UK, in 2021 we made the decision to open a business in the Netherlands, along with a warehouse, allowing us to better serve our customers within the European Mainland.

The DRH Collection BV's sales and customer services are primarily run from our UK offices, and so benefits from utilising our same experienced team!

Representing brands from the United States and throughout Europe, it gives us the ability to source from a huge selection of shapes and designs. Alongside these existing items, we work in tandem with our suppliers to design and develop new and exciting assortments, enabling us to bring to market some fantastic, innovative products and collections which are unique to DRH.

With both of these combined, it has allowed us to build a catalogue full of variety!

Our ability to create new items also enables us to work with our customers to make their own bespoke ranges. Be it by surface design, a change of colour or a completely new shape; we have produced a rich variety of products over the years!

We are an environmentally responsible business, trying to eliminate from within our supplier chain the use of plastics, and putting great emphasis on recycling whether this be by way of packaging, or within our offices and warehouse. We also work with our manufacturers to put in place systems which ensure that they will comply with the Ethical Code of production, and endorse the SEDEX protocols for implementing this.

To see our full product offering, learn more about the brands we represent or get a better idea what we may be able to offer in regards to bespoke work, please spend a little time looking through this all-new catalogue, or visit our website www.thedrhcollection.com. We also have an extensive showroom located at Anton Street in East London, where we would be delighted to welcome you. Please call 24 hours in advance to ensure that the showroom is available.

Our full terms and conditions of trading will be found in our price list, and we would ask you to carefully study these when placing orders with us.

Rio

Juno

Juno was designed to blend the familiar with the modern.

The bowls, broad and graceful, taper delicately for a silhouette that is both inviting and elegant.

Throughout the range, each piece echoes this design in a subtly different way, creating a cohesive collection with a striking silhouette.

Stemmed glasses in the Juno collection are further distinguished by the way the stems are pulled directly from the bowl, creating a delicate teardrop dimple at the base of each piece.

Empire Blue

Empire Blue is a richly coloured variant within the Empire family.

Applied as an ombre effect, the deep, rich blue is visible as a solid colour at the base of each bowl, though slowly fades away as you ascend the glass, leaving behind nothing but clear glass in all its brilliant transparency.

This mixture of clear and colour, enables you to both enjoy the colour of your drink, but also adds a little extra flair to your table.

Available in an assortment of stems, tumblers, and the water carafe also, Empire Blue is a versatile range, be it for just a glass of wine, pitcher of water, or a full table service!

Each of the drinking glasses come gift boxed in pairs, with the water carafe gift boxed individually too.

Empire Amber & Smoke

Empire Amber & Smoke further broaden the offering within the Empire assortment.

Their carefully chosen warm amber and rich smoke colours have been applied in such a manner that the colour creeps up the bowl, fading as it rises, finally exposing nothing but its thinly layered optic.

This ombre effect gives a beautiful blend of colour and class, which lends itself perfectly to the distinguishable Empire shape.

Gift boxed in pairs of matching colours, smoke and amber Empire is available in wine and gin glasses, along with the DOF tumblers.

Palazzo

With its stunningly long stems, and slender profile, Palazzo is as elegant as it is tall.

Running vertically within the bowl of each piece is a wide, open optic, which not only brings shape and style to the range, but also lets in light in such a way as to show off the beautifully subtle, pearl coloured finish which adorns each glass from top to bottom.

Palazzo, with its height, colour and style is a sophisticated collection, made up of flutes, wines, gins, champagne saucers and tumblers, all of which are gift boxed.

Björn

From the top of each piece's rim to bottom of its foot plate, the Björn collection is the quintessential definition of 'contemporary' and 'Scandi' design.

Björn's signature stem is instantly recognisable. Made of a single column of glass, wide at its base, and tapering as it rises, it is decorated throughout with white chips, hand rolled into the glass; instantly giving each piece a unique finish.

Balancing this out is the foot plate, which whilst often overlooked on many-a-glass, Björn draws focus onto it by giving it depth and weight.

Lastly are the bowls themselves – beautifully rounded and clean-lined, their simplicity nestles effortlessly upon a glass that brings presence to the table.

Comprising flutes, wines, gin cocktails and highball tumblers within the range, each pair comes smartly gift boxed.

Wave

Taking its name from the tidal, metallic peaks flowing around each glass, Wave is a stylish way to add gold and silver to your table... and to your drink!

Gently rising and falling, as the design navigates its way around the glass, both the gold and silver are bright and polished, thus giving a reflective, mirrored finish. It is added in a manner so that it does not obscure your drink, but instead, accents, the glass, its contents, and the setting in which it is placed.

Within the gift boxed pair, be it the wine glasses, champagne saucers, gin cocktails or DOF tumblers, each of the glasses have a differing design, so to mimic the free-flowing reality of actual waves.

The gift boxes too have been given elements of gold and silver, with the 'ASD grey' trim being changed to gold or silver, so to match whatever is inside!

Decorative Bowls

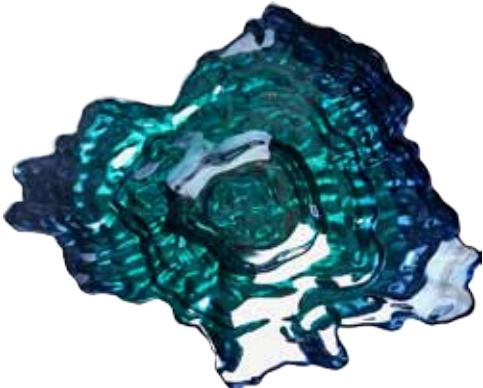

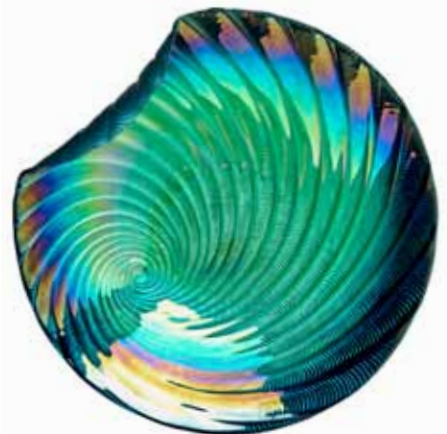

Anton Studio Designs' range of Decorative Bowls are incredible in so many ways! Be it their variety in style and design, their size (up to 41cm!), the fact that they are hand painted, their versatility... and, of course, how much they add to any room.

From abstract and colourful designs, to coral reliefs; and glistening peacock feathers to Indian motifs, there are so many options within this collection.

These bowls are perfect for either practical use, such as a fruit bowl, or just purely to be used as decoration!

Fiesta

Artland's Fiesta collection fully embraces the colourful and the eclectic.

The design and colour on each glass differ, creating a wonderful 'mix and match' collection.

The decorations range from identifiable to abstract, though all sit perfectly together, working in tandem with the application of blues, yellows and ambers which run throughout.

The bright and brilliant colours are achieved with a mixture of various coloured stems paired with the electroplated bowls, which give them an amazing mirrored finish, both inside and out.

This cocktail party inspired assortment is made up of gift boxed pairs of gins, cocktails and highball tumblers, along with margarita glasses and a set of 4 shot glasses which have a mixture of the various designs.

Peacock

Peacock has received a huge amount of publicity due to its unique look – a fantastically detailed peacock feather design on the exterior of the glass, where the colour gradients from emerald green to a rich turquoise. This is complemented by the mirrored electroplated interior which reflects the feathered pattern within.

Due to the popularity of Peacock the range has grown considerably from its initial launch of just the Wine & Martini glasses. First with the addition of the Flute & Tumbler; then the Gin Glass in 2017, and now the Champagne Saucer and Hurricane Lamp!

Galaxy

Artland's Galaxy range is truly out of this world! This stunning electroplated glass collection has a rich, dark blue, mirrored exterior, through which you can see densely populated constellations of stars made possible by the brilliant gold reflective interior shining through. This combination of colours looks incredible, as the deep blue is offset against the bright gold, and so really makes these glasses come to life!

Tropical Leaves

Artland's Tropical Leaves range is exotic in more ways than one!

There is a huge amount happening within each mouthblown glass. The outside of every bowl has a mirrored silvered finish from which is lasered out a rich foliage of leaves most commonly found in the rainforest! These leaves are made richer still by the soft green metallic interior which glows through the leaf silhouette and really makes it stand out from the silver.

Alongside the six drinking glasses in the range, being a flute champagne, wine glass, gin bowl, champagne saucer, martini glass and tumbler, Tropical Leaves also has within its collection two striking hurricane lamps, which when lit up look even more sensational!

Neon

Neon is unlike anything most have seen before.

The bottom of every bowl is decorated with three different colours, each electric hue taking up a third, and seamlessly changing from one to the next.

This is twinned with a crackle effect throughout the coloured area. Which, whilst it seems to run through the glass, can hardly be felt on the surface at all.

Through this combination of several techniques, each mouth blown glass is not only unique, but mesmerising to look at.

Available open stock in Flutes, Wines, Gins and Tumblers.

Liqueur Sets

The assortment of liqueur sets is one of the most recognised and popular ranges from the Artland collection and has helped make the Artland brand so popular.

Each glass is mouth blown and hand crafted in one of the very few factories which still retain the skills to produce these miniature glasses.

The long and short stem liqueurs each have six differently shaped bowls and an assortment of jewel tone colours within the glass, ensuring that no matter how often these delightful glasses are used, the colour can never come off. To further improve the offer, the sets come with a silver coloured tray to make these a wonderful gift.

Highgate

Pressed glass is becoming increasingly popular as due to its robust nature it is ideal for use at home or within the hospitality environment. Not only this, but pressing, rather than blowing glass, allows you to push the complexity of the design. Highgate is a fantastic example of this, where the sloping gradient within the diamond design creates a highly tactile finish.

The colour of all four glasses is within the glass itself, and not sprayed on, making this range safe to use in the dishwasher.

Highgate comes beautifully gift boxed in a set of four colours.

Dorchester (Fully Cut)

Dorchester was the first of the new cuts under DRH. A detailed design, as opposed to the more classical longer diagonal cuts, Dorchester is made up of a multitude of smaller, symmetrical cuttings to make a series of 'rounds'. These, in turn, create beautiful refractions of light throughout each piece.

Available in both "Fully Cut" and "with Blank Panel", the selection on the adjacent page is all "Fully Cut", meaning that the cutting goes all the way around the bowl of each piece, uninterrupted.

The other primary difference between this offering and that of the "with Blank Panel", is that all the full suite of drinkware is gift boxed in pairs, as too is the Square Decanter.

All of the decanters, along with the double old fashioned tumblers, are 24% lead crystal, with the rest of the range being non-lead crystal.

Dorchester (with Blank Panel)

This version of Dorchester is “with Blank Panel”, meaning that each piece has a ‘break’ in the cutting, which allows for an engraving.

The cutting itself is otherwise identical to the “Fully Cut” version, with the series of finer, smaller cuts making up the ‘rounds’ of the decoration.

The “with Blank Panel” version does not come gift boxed, but instead the items come in smart blue boxes – with the decanters packed individually, and the suite packed in boxes of six.

All of the decanters, along with the double old fashioned tumblers, are 24% lead crystal, with the rest of the range being non lead crystal.

Dornberger

The Dornberger brand is one of the longest established in the UK glass industry, and can be traced back to 1895, with the same family remaining involved with it since its earliest days.

Today, as one of the brands within The DRH Collection, it is intended that this name and brand will become the leading name associated with our own shapes and designs of both lead crystal and plain glassware. Aimed primarily at the trophy and engraving market, but also having a considerable relevance for our customers in both the retail and hospitality industries.

Classic Camembert

BIA's Classic Camembert design brings together all the finest items to accompany and complete any cheese board.

With their classic patterns the plates and platters offer the ideal surfaces for presentation... and of course, no cheese range would be complete without a camembert baker!

Originally intended to be just an additional Camembert baker to sit alongside the Classic Camembert collection, both Cow's Head & Vintage instead became small ranges of their own.

All the items within the range are made from porcelain and are gift boxed.

Egg Coddlers

BIA's reinvention of the egg coddler with modern designs was first brought in at the very end of 2015, and was an instant hit!

A clean and simple way of poaching eggs, the coddlers are easy to use. Simply add oil or butter to the inside, crack in an egg or two, add any ingredients you wish, gently screw the lid back on, and add to boiling water for around ten minutes. Once ready, you can eat it straight from the coddler.

Eggs have always been a popular breakfast, but poaching eggs can be a messy business! The ease of using the egg coddler, coupled with the ability to add ham and cheese, smoked salmon and cracked pepper, or whatever else you like, makes the coddler a fantastic item!

All eleven designs come gift boxed with serving suggestions, and, with the exception of the Set of 2 Chasing Chickens Coddlers, all come in a counter display unit in packs of six.
